

**The following items will be discussed at the meeting of the Standing Committee on Accountability and Student Achievement to be held on Tuesday, April 26, 2016 at 5:30 p.m. in Room 410 at the Durkin Administration Building:**

c&p #2-9 - Clerk (August 3, 2012)

To consider a communication from a citizen regarding the findings of an ACLU/Citizens for Juvenile Justice report entitled "Arrested Futures."

gb #4-298 - Mr. O'Connell/Mr. Monfredo/Ms. Novick/Miss Biancheria (October 28, 2014)

To work with the Council of Great City Schools in a review of all standardized testing which takes place in the Worcester Public Schools, to (1) "review the entire array of assessments administered... to determine alignment, appropriateness, and technical quality", (2) to "review the findings from the comprehensive survey of district testing and make recommendations for improvement, (3) to "streamline or eliminate assessments that are found to be of low quality, redundant, or inappropriately used", and (4) to "improve the use of assessment results to enhance classroom instruction, and curtail counterproductive 'test prep' practices", all as set forth in the October 15 "Commitments from the Council of Chief State School Officers and the Council of the Great City Schools on High-Quality Assessments."

gb #5-25 - Administration (January 9, 2015)

To review the 2014-15 October 1<sup>st</sup> Student Enrollment Report.

STANDING COMMITTEE: **ACCOUNTABILITY AND STUDENT ACHIEVEMENT**

DATE OF MEETING: Tuesday, April 26, 2016

ITEM: Clerk (August 3, 2012)

To consider a communication from a citizen regarding the findings of an ACLU/Citizens for Juvenile Justice report entitled "Arrested Futures."

PRIOR ACTION:

8-23-12 - Mr. Chris Robarge, Central Massachusetts Field Coordinator for the American Civil Liberties Union of Massachusetts made a presentation to the School Committee regarding a report entitled, "Arrested Futures."

Miss Biancheria made the following motion:

Request that the item be referred to the Standing Committee on Accountability and Student Achievement.

On a voice vote, the motion was approved.

Mr. O'Connell made the following motion:

Request that the Administration provide a summary to the School Committee and Mr. Robarge as to what the Administration spends on the five police officers, where they are housed and what their general duties are in the schools.

On a voice vote, the motion was approved.

(Continued on page 2).

BACKUP:

Annex A (3 pages) contains a copy of the Agreement between the Worcester Public Schools and the Worcester Police Department for the 2015-16 school year.

PRIOR ACTION (continued)

- 4-29-13 - Mr. Pezzella did a detailed presentation on the report entitled "Arrested Futures."  
Ms. Novick made the following motion:  
Request that the Administration provide a copy of the agreement with the police officers that covers both their financing and duties.  
On a voice vote, the motion was approved.  
Miss Biancheria made the following motions:  
Request that the Administration provide a report on the schools that have the PBIS Program and the number of schools that have staff being trained in that program.  
Request that the Administration provide in a Friday Letter a review of the infraction list and codes for suspensions.  
On a voice vote, the motions were approved.  
It was moved and voice voted to hold the item for the next meeting of the Standing Committee on Accountability and Student Achievement.
- 6-23-14 - Miss Biancheria made the following motion:  
Request that the Administration provide a report with details as far as what the agreement is with the Worcester Police Department.  
On a voice vote, the motion was approved.  
Miss Biancheria made the following motion:  
Request that the Safety Liaison interact with the Worcester Police Department to determine if an agreement exists.  
On a voice vote, the motion was approved.  
Ms. Novick made the following motion:  
Request that the Administration create a Memorandum of Understanding with the Worcester Police Department around the WPD activities in the Worcester Public Schools if an agreement does not exist.  
On a voice vote, the motion was approved.  
HOLD for a response relative to the Memorandum of Understanding.

**AGREEMENT BETWEEN WORCESTER PUBLIC SCHOOLS**  
**AND WORCESTER POLICE DEPARTMENT**  
**2015 – 2016 School Year**

Worcester Public School (WPS) Administrators are directed to use the following procedures in requesting assistance from the Worcester Police Department (WPD).

**Emergency or Acute Incidents: 911**

For all situations requiring an **immediate response or police intervention**, 911 must be dialed. (Examples of situations requiring an immediate response would be a fight in progress, a serious medical problem, any life threatening situation, suspicious building intruders). School staff will give as much accurate detail as possible when describing the problem and the specific location on the school campus. The best entry point for police to access the problem should be conveyed as well. Be advised that if making this call via cell phone, the call is first routed to the State Police and then transferred to the WPD.

**Emergency Response by Police:**

At least one Operations Officer will be dispatched to the school on all emergency 911 calls requiring immediate action. The Officer will conduct the initial investigation and take appropriate action (i.e. request for hearing application for complaint or arrest when necessary). Should the investigation warrant a complaint; the Route Officer will assist the School Administrator in filing a complaint application.

**Non-Emergency, Past or Generalized Incidents:**

*The School Liaison Unit of the Worcester Police Department works Monday – Friday, 8:00 am to 4:00 pm.*

- **During School Hours**, principals will call the **School Liaison Unit** of the Community Impact Division at 508-799-8664.
- **Before-School or After School Hours**, police service requests will be forwarded to the WPD Complaint Line at 508-799-8606.

**Threat of Bomb or Explosives:**

On Bomb Threat Procedures, the Principal will call 911 for an immediate police response. If possible, at the time or receipt of the call, an attempt should be made by the school administration to utilize the \*57

tracing system in order to learn of the callers identity or and/or location. (Refer to the Verizon "Unlawful Call Center" brochure for instruction).

Once the school is evacuated, the responding police officers will assist in the search of said "bomb threat location". **NOTE:** The respective school principal has the ultimate authority on when reentry to the school is to occur.

### **Police Response Guidelines:**

For incidents not requiring an immediate emergency response by police, the School Liaison Officer is to be contacted by school administration to respond and investigate the matter at hand. The School Liaison Officer in turn can address and investigate the matter or refer the matter to the appropriate investigating unit, i.e. Vice, Sexual Assault Unit, Traffic Division, etc.

Request for added police presence/patrols on WPS campuses before, during or after school should first be directed to the School Liaison Officer who will arrange for adequate police deployment. Instances such as anticipated fights, threatened or anticipated domestic violence, trespassers, snowball or rock throwing at school busses should also be directed to the School Liaison Officer. It is understood that some incidents may materialize suddenly and require a 911 police response.

School Liaison Officers are to handle all past and non-emergency investigations on Worcester Public Schools campuses that are reported to them by the school administration.

School Liaison Officers, on a daily basis, are to review call data to determine whether a school assigned to them required 911 police service from Operations or other street officers.

School Liaison Officers shall handle requests for Traffic enforcement (i.e. speed, crosswalk enforcement) or for chronic parking issues, to a reasonable degree. If added enforcement activity is required, the Traffic Unit of the Operations Division must be contacted so that traffic enforcement can be deployed.

School Liaison Officers should respond to their assigned schools to confiscate and secure drugs or other paraphernalia confiscated by school administration, as per WPD drug evidence procedure. However, if the School Liaison Officer's response cannot be made in a timely manner, the Route Officer will respond.

### **Mutual Cooperation:**

When requested by an investigating officer, principals are to make an administrator available to assist in identification of students.

It is understood that both the WPD and WPS must adhere to certain confidentiality and privacy laws/statutes/regulations, and that any protected data that is divulged or uncovered in the course of an investigation, will be safeguarded by both organizations.

Mr. Robert Pezzella, School Safety Liaison for the WPS will be the primary point of contact for the schools.

Sgt. Tony Maddox, Commander of the School Liaison Unit, will be the primary point of contact for the WPD.

### School Resource Officer Model:

The Worcester Public Schools in partnership with the Worcester Police Department, have committed to the School Resource Officer (SRO) model practices of school policing during the 2015 – 2016 school year. Once both agencies define the appropriate model/practices to be adopted, this MOU will be revised to reflect the role of the SRO, training for both school administrators and police officers in the use of police powers, and authority in a school environment.

  
Mr. Gary J. Gemme, Chief of Police

  
Dr. Marco Rodrigues, Interim Superintendent of Schools

12-14-15

DATE

12-16-15

DATE

STANDING COMMITTEE: **ACCOUNTABILITY AND STUDENT ACHIEVEMENT**

DATE OF MEETING: Tuesday, April 26, 2016

ITEM: Mr. O'Connell/Mr. Monfredo/Ms. Novick/Miss Biancheria (October 28, 2014)

To work with the Council of Great City Schools in a review of all standardized testing which takes place in the Worcester Public Schools, to (1) "review the entire array of assessments administered... to determine alignment, appropriateness, and technical quality", (2) to "review the findings from the comprehensive survey of district testing and make recommendations for improvement, (3) to "streamline or eliminate assessments that are found to be of low quality, redundant, or inappropriately used", and (4) to "improve the use of assessment results to enhance classroom instruction, and curtail counterproductive 'test prep' practices", all as set forth in the October 15 "Commitments from the Council of Chief State School Officers and the Council of the Great City Schools on High-Quality Assessments."

PRIOR ACTION:

11-6-14 - Referred to the Standing Committee on Accountability and Student Achievement.

Mr. O'Connell made the following motion:

Request that the Administration conduct a review of the scope and range of testing in the Worcester Public Schools to determine if the system can reduce the number of tests and free up that time for class instruction.

On a voice vote, the motion was approved.

Ms. Novick made the following motion:

Request that the Administration conduct its own review of all standardized testing which takes place in the Worcester Public Schools rather than hiring the Council of Great City Schools to do so.

On a voice vote, the motion was approved.

BACKUP:

Annex A (5 pages) contains a copy of a the Administration's response to provide how much time per student is spent on the standardized assessments by grade and indicate how much time is lost per classroom with the administration of the tests.

Annex B (2 pages) contains a copy of the Administration's response to provide information regarding the change to the ACCESS computer-based testing.

Annex C (6 pages) contains a copy of the Administration's response to provide the names of the state required tests and district tests and include the grade levels for each.

Annex D (4 pages) contains a copy of the Administration's response to provide the results of the 2013 Teacher Survey.

PRIOR ACTION:

9-30-15 - Amanda Kershaw, Testing and Evaluation Specialist, presented an excellent explanation of the following District Assessments:

Early Screening Inventory (ESI)

Dynamic Indicators of Basic Early Literacy Skills NEXT (DIBELS NEXT)

Fountas and Pinnell Benchmark Assessment System (F&P BAS)

Measures of Academic Progress (MAP)

Ms. Novick stated that if the system is going to continue to use MAP, it has to find a better way of having conversations with the students regarding ways to improve their scores rather than just providing a number.

Ms. Novick made the following motion:

Request that the Administration provide how much time per student is spent on the standardized assessments by grade and indicate how much time is lost per classroom with the administration of the tests.

On a voice vote, the motion was approved.

Ms. Novick requested that the Administration provide some information regarding the change to the ACCESS computer-based testing.

Miss Biancheria indicated that the teacher survey instrument was not adequate.

Miss Biancheria made the following motion:

Request that the Administration provide the names of the state required tests and district tests and include the grade levels for each. She further requested that if a test is optional for students, indicate whether it is taking place or not.

Miss Biancheria made the following motions:

Request that the item be held and provide the aforementioned chart regarding testing for the next meeting.

Request that the Administration provide the results of the 2013 Teacher Survey.

On a voice vote, the motions were approved.

Re: Time on testing

---

This past weekend, President Barack Obama released a Testing Action Plan that highlights effective approaches to student assessment for states and school districts.

Among other recommendations pertaining to the assessment of students, the action plan calls for states and districts to be mindful of “over-testing.” Specifically, it advises states and districts to limit the percentage of instructional time that students spend taking *statewide* standardized assessments to no more than two percent of instructional time.

Attached are two documents that summarize the amount of time students sit for *both* state and district-based tests. The two documents differ in that one pertains to Grade 3-8 students who might take the Massachusetts Comprehensive Assessment System (MCAS) in 2015-16 while the other pertains to Grade 3-8 students might take the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment. As you know, the Massachusetts Board of Education is expected to determine which of the two tests Grade 3-8 students will take in 2015-16 on November 17. In either scenario, the analyses show that students in the Worcester Public Schools are spending less than two percent of instructional time on standardized tests, even when district-based tests are included in the calculations.

Please let me know if you have questions or need clarification.

Worcester Public Schools: Time On Testing 2015-16  
(Including MCAS Grades 3-8)

Grade Level	Test	Maximum Expected Duration per Administration	Required Participation during Year	Total Time per Student
K	Early Screening Inventory (ESI)	20 minutes	1	20 minutes

## Student Assessment

### A Comparison of Paper- and Computer-Based ACCESS for ELLs 2.0 Tests

New computer- and paper-based ACCESS for ELLs 2.0 ("ACCESS") tests will be administered to English language learners (ELLs) in the 2015-2016 school year. Schools will have the option to deliver the assessment as a computer-based or paper-based assessment, or a combination of both. In schools administering the computer-based assessments, a student may take a paper-based version of ACCESS 2.0 if he or she is unfamiliar with computers, or is unable to use a computer due to a disability. Paper-based versions of the Kindergarten and Alternate ACCESS for ELLs tests will continue to be administered to all students.

To assist schools make decisions about which test versions to administer, a comparison of ACCESS computer- and paper-based test formats is provided below. Additional information can be found on the WIDA ACCESS for ELLs 2.0 webpage.

For assistance, please contact the Student Assessment Office at the Massachusetts Department of Elementary and Secondary Education at [access@doe.mass.edu](mailto:access@doe.mass.edu) or by phone at 781-338-3625.

Test Domain	Paper-based test	Computer-based test
<b>Listening</b>	Test administrator plays the listening passages on a CD	Listening passages are played to students on the computer through headphones

## District Assessments

### Early Screening Inventory (ESI)

ESI is a brief developmental screening instrument designed to be individually administered to children entering kindergarten. It is used to identify children who may need special education services in order to perform successfully in school. The instrument addresses developmental, sensory, and behavioral concerns in the following areas: visual motor/adaptive, language and cognition and gross motor skills. The ESI-K uses three categories to describe the screening results: (1) Ready (child exhibits age appropriate development); (2) Getting Ready (teachers are encouraged to monitor the child's progress and, if indicated, to re-administer the ESI) or (3) Not Ready (child does not demonstrate age appropriate behavior).

Grade(s) Assessed	Administration Dates	Website	Where to Find Results	Additional Resources
K	8/31-9/4	<a href="#">Click here for ESI product details</a>	SAGE, School records	

### Dynamic Indicators of Basic Early Literacy Skills NEXT (DIBELS NEXT)

Like the previous version (DIBELS 6<sup>th</sup> Ed.), DIBELS Next consists of a set of procedures and measures for assessing the acquisition of early literacy skills. They are designed to be short (one minute) fluency measures used to regularly monitor the development of early literacy and early reading skills. DIBELS NEXT is individually-administered and takes 1 to 4 minutes to complete. This test is generally administered at the beginning, middle, and end of the year.

### Fountas and Pinnell Benchmark Assessment System (F&P BAS)

The Benchmark Assessment System is a formative reading assessment comprised of 58 "little books" divided evenly between fiction and nonfiction. The assessment measures decoding, fluency, vocabulary, and comprehension skills for students in kindergarten through 8<sup>th</sup> grade. This individually-administered assessment should be conducted by the classroom teacher and typically takes 45 minutes to complete. This test will be administered to all students at the beginning, middle, and end of the year in grades 1 and 2. In kindergarten and grades 3 through 8, testing practices are determined at each school.

### Measures of Academic Progress (MAP)

MAP is an adaptive computer-based test system for mathematics and reading that is group-administered. An overall RIT score (i.e. Rasch Unit, a type of scaled score) is provided along with sub-scores for each goal performance area. Users should note that the district does now use a common-

core aligned version (see below). Schools may also use *Descartes: A Continuum of Learning*, an instructional tool that allows educators to translate a MAP test score into skills and concepts a student may be ready to learn. A student's Lexile score – a unit for measuring text difficulty—is also reported. This test is generally administered to students at the beginning and middle of the year in grades 3 and 9. Winter ELA testing is optional for schools, as is Spring ELA and Mathematics. In grades 2 and 10, testing practice is determined at each school.

- *Goal areas in Reading:* (1) Literature, (2) Informational Text, (3) Basic Skills and Vocabulary, (4) Writing: Plan, Develop, Edit, (5) Language: Grammar, Usage, (6) Capitalize, Spell, Punctuate
- *Goal areas in Mathematics (grades 2-5):* (1) Algebraic Thinking, (2) Number and Operations (3) Fractions, (4) Measurement and Data, Geometry
- *Goal areas in Mathematics (grades 6+):* (1) Algebra and functions, (2) Real and Complex Number Systems, (3) Geometry, (4) Statistics and Probability

\*\* Winter testing optional for ELA only. Mathematics still required for grades 3-9.

\*Spring testing optional for both ELA and Mathematics.

## State Assessments

### Work Sampling/Massachusetts Kindergarten Entry Assessment (WSS/MKEA)

In 2012-13, schools began administering the WSS/MKEA to all kindergarteners. Since 2000, the Work Sampling System has been the formative assessment tool utilized by the district's Head Start program to inform instruction, design professional development opportunities, and use when working with families. As part of a state pilot, the district has expanded use of the WSS to include both kindergarten and preschools in the district. This helps teachers collect information about children's work, identify what children are learning, what they are beginning to master, and what they still need to work on. Work Sampling consists of 3 interrelated elements: observational checklists, portfolios of student work and summary reports. Portfolio samples are gathered throughout the year and help demonstrate progress through concrete illustrations of the child's thinking. Developmental guidelines and checklists cover seven major curriculum areas: personal and social development, language and literacy, mathematical thinking, scientific thinking, social studies, the arts, and physical development and health. These are used to provide structure to teacher observations of students and aid in systematic data collection to monitor student progress.

### Massachusetts Comprehensive Assessment System (MCAS)

MCAS measure performance based on the Massachusetts Curriculum Framework learning standards; and report on the performance of individual students, schools, and districts. As required by the Education Reform Law, students must pass the grade 10 tests in English Language Arts (ELA) and Mathematics as one condition of eligibility for a high school diploma (in addition to fulfilling local requirements). Students must also earn a scaled score of at least 220 on one of the high school MCAS Science and Technology/Engineering (STE) tests: Biology, Chemistry, Introductory Physics, or Technology/Engineering. In addition, the MCAS program is used to hold schools and districts accountable, on a yearly basis, for the progress toward cutting the proficiency gap in half by 2016-2017. Results are reported for individual students, schools, and districts according to four performance levels defined by the Board of Elementary and Secondary Education: Advanced (260-280), Proficient (240-258), Needs Improvement (220-238) and Warning/Failing (200-218).

- [English Language Arts/Reading \(Grades 3-8, 10\)](#) includes multiple-choice, open response and short response items (grade 3 only)
- [English Language Arts - Composition \(Grades 4, 7, 10\)](#) includes writing prompts that require students to respond by creating a written composition.
- [Mathematics \(Grades 3-8, 10\)](#) includes multiple-choice, open response and short answer items
- [Science, Engineering and Technology \(Grades 5, 8, 9-12\)](#) tests include multiple choice and open response items. High school tests administered in grades 9-12 include biology, chemistry, introductory, physics and technology and engineering.

3-12	See Testing Calendar (Appendix D)	<a href="#">For information on MCAS, click here</a>	EDWIN Analytics, ESE Security Portal, student reports on file at school	

### MCAS Alternative Assessment

MCAS Alt is intended for a small number of students “with the most significant disabilities who are unable to take the standard MCAS tests even with accommodations” (Massachusetts DESE, 2010). The MCAS Alternate Assessment consists of a portfolio of materials collected by the teacher and student, including work samples, instructional data, videotapes, and other supporting information.

### The Partnership for Assessment of Readiness for College and Careers (PARCC) Assessment

In November 2013, the Massachusetts Board of Elementary and Secondary Education endorsed a two-year "test drive" of a new testing program called PARCC. PARCC is aligned to the 2010 Massachusetts Curriculum Frameworks in English Language Arts and Mathematics, which incorporate the Common Core State Standards. In 2013-14, many schools in Worcester participated in the PARCC field testing. In 2014-15, districts in Massachusetts had the choice to administer either PARCC and/or MCAS in grades 3-11 (with the exception that all high school students through at least the class of 2018 must continue to pass the grade 10 / high school MCAS tests in ELA, Mathematics, and Science and Technology/Engineering to satisfy the state graduation requirement). About 40% of WPS testing sites chose to administer PARCC during the 2014-15 school year. Information regarding full implementation by the state of Massachusetts' Department of Education is expected to be made available during the fall of 2015.

### Assessing Comprehension and Communication in English State-to-State for English Language Learners (ACCESS for ELLs)

ACCESS for ELLs is a large-scale English language proficiency assessment given to students in Kindergarten to 12th grade who have been identified as English language learners (ELLs). Beginning in 2012-13, this assessment replaced the MEPA/MELA-O. The Access for ELLs consists of four sections:

- Listening
- Reading
- Writing
- Speaking

In grades 1-12, the listening, reading and writing sections are group administered while the speaking section is individually administered. All four sections are individually administered to ELLs in kindergarten. Scores are reported for each of the four language domains and in several composites.

Wednesday, November 19, 2014

Information is related to data submitted to the Massachusetts Department of Education - "SIMS" data.

Comments:

- 1) 2012-13 and 2010-11 Charter data based upon DESE projections
- 2) Not all Worcester residents included. Only in-city schools report on October 1. A small number of residents attend schools outside the city like St. John's
- 3) 2012-13 a few very small private schools did not respond. Impact would be minimal.
- 4) DOE did not collect this data through the WPS in 2000.

# October 1st Summary - Enrollment by Grade History

Monday, November 23, 2015

Information is related to data submitted to the Massachusetts Department of Education - "SIMS" data.

Comments:

- 1) 2012-13 and 2010-11 Charter data based upon DESE projections
- 2) Not all Worcester residents included. Only in-city schools report on October 1. A small number of residents attend schools outside the city like St. John's
- 3) 2012-13 a few very small private schools did not respond. Impact would be minimal.
- 4) DOE did not collect this data through the WPS in 2000.

# October 1st Summary - Enrollment by Grade History
