Lake view Improvement Plan

Hailey, Whitney, Unique

Why we want these ideas for our park

Hello we are 3 fifth graders at Lake View Elementary and we think that the park across the street should be advanced.

Whitney-First are school goes there for spri day and other fun activities such as gym.If we put these ideas it would be more safe to play on we want our community park to be more fun, also I want the park to be more educative somehow.Like for an example we could add cameras so when someone loses something we could check for where it is or who took it. (I don't even go to the park anyways so i am just putting stuff that i think other people want in the park)

Unique- Hello Im Unique Francois and i think that we should add stuff to are park . The community park has not been changed for over 15 years . and should be changed It isn't just for us it's for the community and everyone should have a say. I know many people that go to this park after school. This is are neighborhood and if the park improves we improve in as a community .

Hailey- Hello im Hailey and I think we should add more stuff because the park has not been changed for years and we all go their for gym and paws and more. When we go to the park it gets boring sense we dont have alot of stuff, If we add more we can go more and I know many people that go after school even though I dont go to the park alot but I want the kids that go to have much more fun. This neighborhood has kids that got to the park and the park needs improvement. I think everybody should have a comment of what they want at the park.

Hailey ideas for park

For my ideas I think we need more slides and better swings that everybody can go on, and Cameras for safety.

Uniques Ideas for the park

Hello I'm Unique Francois Ojeda . and here are my ideas for the park across the street.

Garden

Rubber flooring.

Whitney's ideas for the park and why she wants it for the park

1.

OUR IDEAS TO IMPROVE THE OUR PARK.

KEREN A, AMIRA A, TESSA B,
MARIA A.

WE ARE STUDENTS AT LAKE VIEW SCHOOL!!!

We are students from Lake View Elementary School and we are going to introduce some new ideas we think our park should have and need.

We really need new improvements because there isn't any good stuff at the park and sometimes it gets less fun while there's less people. Also the stuff that already there. So here are our ideas that we brainstormed together to improve our park.

THANK YOU FOR READING THIS MESSAGE.

THE SOCCER FIELD.

For the big area of the park, between the playground and the hill, we would like to add a medium size soccer net because the boys in our class like to play soccer but they don't have a soccer net. So we wanted to get something that the boys and girls would like and need to play soccer.

Like this size!

THE VOLLEYBALL FIELD.

For the volleyball area we thought it was a good idea to have it in between the playground and the fence where the small tree is. We thought that this net was perfect because if there is little kids that want to play, you can just adjust the height of the net to match their height, and if taller people want to play then you can just move it to be higher .

Inspo pictures!:

For kids that have a wheelchair!

Tire swing!:

SWINGS FOR EVERY BODY!

For the swings we wanted to include something for the kids that have wheelchairs. Like the swing shown on the screen! We also would like to add a tire swing, which is a very fun to swing.

SLIDES!!

The slide we wanted to do a rock climbing wall or something like the picture shown on the screen. Which I think is way easier and safer for little kids that don't know how to rock climb yet.

FOOTBALL FIELD

We were thinking on having the football area near the basketball hoops because lots of the boys play football in that area, plus it's a big space. They also like to play kickball there sometimes like after school. So for kickball we could add some rubber bases.

I think we need a new set of benches because the ones we have now are too low and the color are ripping off. Also we need a bike rack because all of the kids would leave their bike on the ground ,and we also need a new trash with a recycle with it because it would be way better to recycle to.

GARDEN!

We think that we could make a garden on the top right of the hill. I think the top of the hill is where not most people are because there isn't really anything to do up there. It would also be a great stop because in the summer, the flowers will get the sunlight they need to grow.

BASKETBALL COURT

We need a full Basketball court because there is only 1 hoop in the court and many boys and girls like to play in teams, but there isn't enough room on the court.

PICNIC TABLES

We wanted to add something for the parents that stay at the park while their kids play at the park. So we wanted to add a lunch table for the parents to sit down and chat with other parents that are also there. Another reason is that the parents will just stand around and have nowhere to sit because the benches are taken.

THE PLAYGROUND STRUCTURE!

We need a new playground structure because the one has graffiti and rusted and has been there for so long so it would be nice for a new one.

Introducing ourselves

Hello, our names are Peter, Yousef, Jaynion, Sevn, and Christopher. We are a group of 5th graders who are attending Lake View School and we are here to talk about improving the Lake View Park with our ideas that can make the park better.

Idea #1

We think that they should add a new basketball hoop and new concrete court cover so we can dribble more comfortably and shoot more accurately. The hoop now is extremely old, so we want a new hoop.

Idea #2

Our park looks like a weak field of grass so maybe we could plant flowers. It will be a nice touch so that its not just a land of grass. Maybe we could also get the grass fixed and remove rocks and sticks.

Idea #3

Our park has 2 slides. But one of them is a rusting tube slide and the other is for young kids. We can get rid of these slides and replace them with some better slides. Our tube slide has so much graffiti, even we spray paint it to its original color it still would not look the same or brand new.

Idea #4

There are four normal swings and two baby swings in our park. The normal swings are overused and baby swings are underused, so get more swing sets for more normal swings so everyone can enjoy the swings. Also if we don't or do get new swing sets we would like the molch to get removed.

Idea #5

Another thing we'd like is a new basketball hoop and to resurface the concrete. This can make us dribble more comfortably and shoot more accurately. Some of the concrete now is drawn on and the post of the hoop is drawn on.

Thank You

Before you exit this slidedeck we want to say thank you for this opportunity. We hope you take our ideas into consideration, have a nice day.

A photograph of a park with many large, mature trees. The ground is covered in green grass with shadows cast by the trees. In the background, there is a playground with blue and green equipment. A picnic table is visible in the lower right foreground. The text is overlaid on the image.

How to make lake view park more better

Lorik, Matthew, Brian E, Ryan, Richard

Soccer field

We can put the Soccer field next to the basketball court and we can put a fence right in the middle of basketball court so the basketballs dont go into the soccer field. We can also add astro turf to the soccer field so we dont step on any holes or have to take care of it that much or pay to cut the grass.

Volleyball

A lot of girls at school like playing volleyball so what we can do is to replace the grass with sand or dirt and add the volleyball net in the middle so people can play Volleyball when ever they want

New benches

We want to get new benches because the other benches are old and too low to the ground. We also want more benches to put around the park because there are only benches around the climbing place.

Playground

We can put in a new play area because it has gotten very old and there are a lot of people that get very hurt and there's graffiti everywhere. We need to add more play places for children.

We can add a new pairs of swings because the one we have is very old and rusty/crecky. There isnt a lot of swings so kids can use, the swings are always full of kids.

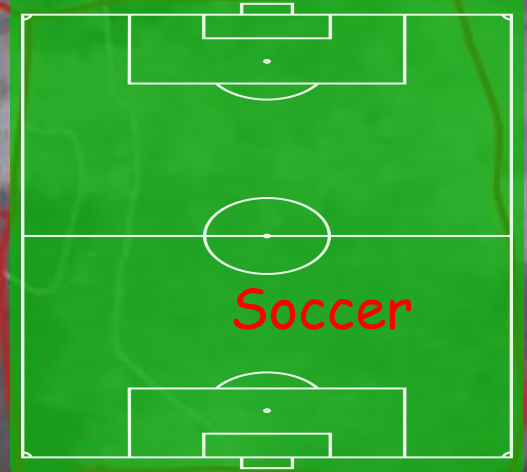

Free space

Swings

playground

Soccer

Volleybal

Ending

Thank you for reviewing our ideas on our Lake view playground improvements, I really hope you enjoyed our ideas and have a great day!

The background of the slide is a close-up photograph of green leaves on dark branches. The leaves are in various shades of green, from bright lime to deep forest green, and are slightly out of focus, creating a soft, natural texture. The lighting is bright, suggesting a sunny day.

Lake View Park Improvement Plan

By- Halina, London, Albert, Emily, and
Olivia

Swings need to be inclusive for all including people who use wheelchairs. Our old swings are rusty, old, and there aren't many. Adding more swings that can be more fun for everyone.

Roundabouts

We should have roundabouts in our park! Roundabouts are fun things the kids could experience. When I was younger I always wanted one, so I feel like it would be great if one was installed. *I also think that if we do get a roundabout we should get one with a fence around it so the little kids don't fall and hurt themselves.*

Rusty playground

I feel like there should be a bigger playground which would be newer or clean so kids will actually play on it. Most of the playground is rusty, so nobody plays on it. If we cleaned up the rust, maybe people would!

We should have a new half court. The one we have now is getting older and getting cracks. We should also have bike racks for the people who ride bikes to school.

I think that we should make the park a more social and funner by making it a place which people want to hang out at. So, I think we should add some benches. So people can chat and hang out after school or on the weekends.

Higher monkey bars

Having taller monkey bars can be more inclusive to older kids, there should also be shorter ones for the little kids.

Playground

I feel like we should have two playgrounds like we do now one that is smaller and one that is bigger. The smaller one should also be accessible for people on wheelchairs.

List of everything we suggest

- I feel like there should be a bigger playground and it should be newer and clean so kids will actually play on it.
- There should be a bird nest swing and more swings that aren't rusty for big/younger ages.
- There should also be bench tables for people who want to hang out with their friends or just sit and eat or just anything in general like a poly picnic table which is a clean look.
- There should be newer monkey bars that is higher or longer like overhead trekker, horizontal ladder, and air dancer
- There should be a longer or taller slides like double waves side or
- A better mini playground for younger kids
- There should be a portal climber or something kids can climb in general like Abc climber
- There should be matted floors or something so the park is more safe
- Swiggle stix bridge

Lake view park: Improvement plans

By: Gabriela, Morgan, Caleb, and Rahman

Why We are making this slide :

Hi we are a group of fifth graders from lake view elementary school and we REALLY need to improve our current park. For years kids had been playing in that same park, And our park currently is broken, old, rusty, trashy, and graffitied. And kids have to play in this environment. We are planning to help improve and give new ideas from a kids point of view so we can make our park the best it can be!

So here's our ideas!

First idea:

First we think we should add picnic tables because We thought that it would be a good place at that park with shade, and a good place to rest for people who are tired of running. We also think that it would be a good idea if we added some hand sanitizer dispensers around the park for people to clean up after they played in the dirt and were touching the dirty park, so we don't spread illness.

Second idea:

Our next idea is that we think we should add a track around the perimeter of the park for a better place for kids to do their laps at gym. And overall a better place for kids to run, jog, and walk when we need to do our exercises.

Third idea:

Our third idea is that we think we should get rid our current swing set because it is old, rusty and sometimes when people go to high it feels like you are just gonna to fall off, and replace itb with We also think there should be another swing set because sometimes kids have to wait until other people to get off.

Forth idea:

Our forth idea is to plant flowers around the park and/or expand the little butterfly garden on the edge of the fence, to give the park a more earthy look.

Fifth idea:

For the fifth idea we think we should add a gazebo so people that go to the park can sit down in the shade and eat their food and if you wanna take a break they could sit in the shade and drink some water or prime or any type of drink you want.

Sixth idea:

For our next idea we wanted to add a park for smaller kids and have a park for the older children so it could look more organized won't. Also to replace the mulch because it has been there for years and if you fall on it, it really hurts . And i also think we should change the ground to a softer surface so if anyone falls they won't get hurt really bad.

Ending Slide:

As you can see we have many ideas to improve our park and we hope that you take any of these ideas into consideration and improve our park with our ideas. We love our park very much and would like to make to our park the best it can be. And hopefully with our ideas we can make our park a better environment for all students!

Our Ideas for Lakeview Playground

**Bruce
Tra**

20%

Joel Anokye

20%

Tubes Slides

I think that these type of slides are a reasonable addition to our playground, because of their safety and how much children like these type of slides. Also, Plastic Tube slides are cost effective compared to others.

Cubic kanots

I think that cubic knots are great for a playground here's some of my reason's the first reason that this could be in a playground because some kids like to cimb things also it is safe for children 5+ which is why it would be a good idea.

Playtown Riley Rescue

So all the little kids can play and role play and learn about helping others

These bridges would be good for other play structures so it can connect so it can be larger and better

Bridges

Merry-Go-Rounds

The reason why we should have a Merry-Go-Round at our playground is because it is a fun addition, and also teaches kids to share more and be more social, by making kids play with each other.

Seesaw

To teach kids to let other kids play and
friendship

Transfer station

This should be added to the park because a lot of little and older kids like to jump on the steps of the stairs of the transfer station that
Why this should be added- This should be add to the play structure

Lights

Joel: This SHOULD be ADDED to a playground when it get dark so there can be some lights

Zoe: This should be add also because it could be censored to motion and could have cameras add and it would catch the people who draw on the playground, and they will be stopped!

!Under construction!

THANK YOU FOR WATCHING OUR SLIDES

A photograph of a two-story brick school building with green window frames and a brick chimney. The building is surrounded by trees and a sidewalk. A blue sign in the foreground reads 'LAKE VIEW SCHOOL' and 'WELCOME CLASS OF 2021'. The number '133' is visible on the brick wall.

Lake View Playground Improvement

By: Lucian and Christian

A photograph of a park. In the foreground, there is a red playground structure with a black slide. The ground is covered in wood chips. In the background, there is a basketball court with a green fence, surrounded by trees and a grassy area. A white car is parked in the distance.

What should they add to the park

I think they should get rid the old basketball hoop and get a new one with the fences around the Basketball Court. I think they should add new benches and get rid the old one. Don't get rid of the stone. Maybe some new swings or slides. Probably add something safe for childrens. We should get a football field and some new guardrails or a cog wheel. I think they should add something safe. What about something covering a person when they're hot?

Jin, Brian o, Juaquin, Jeremy, Jason

We are students at Lake View School

This is a proposal about how we want to change and add things to the park and bring things to it to help kids enjoy the park a lot more

Thank you for giving us some of your time to read this.10

A Flower garden and a place to relax.

We can add some more benches to the park

Maybe we can also add a swinging bench

Soccer Goal Post

We want a new goal post because a lot of boys in are class like soccer, also there are no proper goals for us to use, because the small goals makes us inaccurate, also 1 person can block the goal

https://www.amazon.com/Forza-Soccer-Single-Optional-Target/dp/B0191MFV60/ref=sr_1_3?keywords=Goal+Posts&qid=1679418118&sr=8-3

Jason's Idea

Make another half court to make it a full court

Volleyball net.

The volley post can help kids play volleyball with a good net. It can also be used for badminton and tennis on the basketball court

<https://www.amazon.com/Freestanding-Badminton-Volleyball-Optional-Portable/dp/B0777SX6DY>

Ride on cars and go karts

Cars are good for mobility and for racing on the tracks. They can also help kids have fun, and they can increase a kids driving experience way more than if their riding a bike. They can also have fun racing and

Dog jumps

I see many dogs at the park so this makes me think that we can add a dog jump.

Lake View Playground Improvements

A photograph of a park area. In the center, there is a playground with a wooden structure and a swing set on a brown rubber mat. To the right, there is a paved basketball court with a hoop and backboard. A black trash can is located near the court. The foreground shows a grassy area with a small tree and some plants. In the background, there are several trees and a white house with a grey roof. The sky is blue with some clouds. The text "Lake View Playground Improvements" is overlaid in white, bold, sans-serif font.

Introduction

Hello everyone we are Lakeview Elementary students and we are gonna share our ideas for improvements for the park.

Get to know us!

Hello I am Joshua Waddell I have a younger brother Isaiah and a cat named Goldenrod And I'm African American. I enjoy soccer.

Hello my name is Lianni Alas and I am from El Salvador and I have 5 siblings and I am in grade 5.

Hello my name is Anthony and I am Hispanic I am from Puerto Rico and El Salvador have a younger sister named Ava, a dog named Nala (from the movie Lion King) and a cat named Joey and I have two stepbrothers named Aiden and Ashton.

I am Jaslin and I have 3 sisters and I'm from El Salvador and I came to Lake View this year (grade 5).

Hello I am Isabella and I have one brother and I am from Brazil and I am in Grade 5 and in Lake View.

THANK YOU FOR LOOKING AT OUR SLIDE
FOR LAKE VIEW PARK IMPROVEMENTS!

Park improvement By Zion and Kieran

Number 1: The fields

Zion- I think the big fields needs some soccer goals.

Kieran- The fields are empty it's nothing but grass so I think there should be soccer goals.

Number 1: what we think would be good to add to our public park and what we should fix.

Kieran- I think we should fix the swings because every single time people go on the swings the sound and the way the swing moves makes it sound insecure.

Zion- I think the basketball court should get fixed also the playground

Number 2: Basketball court.

-Zion i go to the park every day i think we should redo the concrete and put some new rim with only 1 rim no double rim.

-Kieran I play basketball at the park but we only have a half court basketball court and a double rim which is more annoying so we want improvements for the basketball court.

Playground set

Zion we need to remove the trees and make a new play set with cameras and so and we need a whole new park.

Kieran We need to have the trees near the play set removed. Plus the playground is empty. We need better stuff like a climbing structure a zipline or better monkey bars. Also when it rains the monkey bars get wet so it is easy to fall.

Security

Zion-we need to remove the trees and make a new play set with cameras and some people grafitte and we need a whole playground.. And we should set up cameras at the park

Kieran We should add security cameras so gangs won't ruin the park.

Extras

Zion-we need to remove the trees and make a new play set with cameras and some people grafitte and we need a whole

Kieran We should add fake grass, better benches, and better tr

Lake View Playground Improvement plans

By: Brianna, Sara, Gabriella, Sophia

Introduction

Hi we are 6th graders from Mrs.O'Connor's class and we have some examples on what we might be able to do to help improve our Playground and make it better for kids in the future.First, is Gabriella on our Basketball court.

Basketball Court

Our basketball court can be improved. We have a lot of space in our park so why don't we expand it a little. Lots of people get into sports and why don't we let them practice there, with a larger basketball court. They can experience the real world behind the everyday practice. Next will be Sara on fixing our grounds.

Redoing the Grounds.

Our playground floors are rough and blanketed with mulch. If we get some rubber flooring, we would be much safer. In rubber flooring, we can add color and games imprinted on the ground. Plus, people will be amazed with the new improvements that would entered in our community park. Brianna is next talking about our Slides!

Slides

If you think about it our slides have two or more problems. Number 1. We mainly only have three. One for little kids, one for both and one for big kids. Number 2. Is kids have to wait and wait and wait just to go on once, on the next slide I show a slide that could have multiple and is easy to maintain too, So I think It will be a good addition to our park.

Swing Set.

We need a new swing set because ours are squeaky and rusty. What if we had more than one swing set? When we all go out to play, lines form and we have to wait. No one wants to give up their spot. And if we could change that, it would really make us happy. We can use up the space that we have and let that space help us with this idea.

Connected Equipment.

I know this park already has some connected equipment, but if we could replace that and add bigger and more colorful equipment, then that would make the appearance better, as well as get more things to play with.

Benches

If you look at our park the benches they are pretty rusty and those benches are also the benches the neighborhood parents sit in. They need a new comfortable place to sit and relax on. Also the benches there should be extended so when someone is standing waiting for a turn, there is always a spot available.

Security cameras

Our park needs to be protected from people who vandalize the equipment there. If we added some security cameras, then imagine how much cleaner and safer the park would be. Like they say, better safe than sorry!

Roundabout

A roundabout is just what this playground needs. Sometimes getting dizzy is just what someone needs on a boring day. But then again, these are just suggestions that we wish to put in our park. If you think it is safe a considerable, then we would love to have it.

Musical Equipment

Many kids love instruments! if we could add some musical equipment, it may influence kids that might want to use instruments or might use instruments in the future.

In conclusion

Thank you for listening to our ideas and we hope to help improve our park. We know that we can't spend too much money, so if you could consider even some of these ideas, then that would still be very helpful.

Park Remodel Ideas

By Tristan, Clarence,
Jude, Javian, kaiden

New playground equipment

The New things we need for our park is new swing sets and playgrounds and benches because the benches are old and rusty and they been there for 16 years and where the parents can sit to watch their kids play and keep on a eye on them. And add street lights and say no vaping.

A silhouette of a person dunking a basketball into a hoop against a bright sunset background. The person is in the foreground, reaching up to the hoop. The sun is low on the horizon, creating a strong glow and lens flare. Another person is visible in the lower right corner, looking towards the hoop. The background shows a fence and trees.

New basketball court ideas by Clarence konneh

To start we should get new basketball hoops because the one that we have now are double rimmed so it's more difficult to shoot in the net. We should also get a full court instead of a half court for more space to play. Also for fun they should add adjustable hoops for people who want to dunk.

First things off, I want to mention that the surface under the playground has many cons such as wood chips getting in your shoes, stepping on it barefoot, and having divots under each swing. I would 100% put wet pour rubber to replace the wood chips because if you or your child falls off or falls near the swings it would not hurt them as much wood chips would. I also think we should replace the swings with brand new ones because there are only 6 swings but 2 of them are for toddlers/babies that always get taken and you have to wait your turn. In addition they squeak every time you sit on it and it's very rusty.

I think we should have a soccer field because there our no nets so if someone scores a goal sometime people say that is not a goal so that is a problem. We should also get movable goals so if anyone else wants to play something else they can move it out of the way.

Security

We need security cameras because there has been evidence of vandalism. Also there are over 20 gangs in worcester massachusetts that have vandalized and there people smoking, on the slide that we have now.

Thank you

Thank you for your time and consideration we hope you put some ideas of ours in
The lake view park and thank you Goodbyeeee

Jude

The Park we Want

By Eden.N, Jack.T, Jenessa.P and Agyeman.O

Spider Web

We should add these because it will add to the variety of climbing areas and be fun for the kids.

What can we do to improve the park

We should get cameras so if somebody tries to spray graffiti on the slides we can catch them or if a fight happens we could try and figure it out.

We don't want metal slides.

The reason why we don't want metal slides is because in the summer, metal gets extremely hot, and when children with shorts get on the slide, their legs will be harshly burned. Also it can be hard for children to slide down because of the friction between their legs and the metal slide. Lastly, they could bang their head if their not careful enough.

Add more monkey bars and put something soft under it.

We want new monkey bars because we have only one and people could bump into each other while using the monkey bars. We could add wavy ones and straight ones. Also, if many kids swing on one monkey bar then it is more likely of getting hurt. Also, we should put something soft like a comfy pad under the monkey bars because I went to the park and I was watching a little kid play on the monkey bars, but she missed a bar and fell head-first into the grass. Even though she fell into the grass, she could've been

Seriously injured, which would be bad because

Then the parents could sue the school or the city.

Synchro Spinner

The reason why we would want a Synchro Spinner is because children sometimes get bored from doing the same thing over and over again, but if we added a Synchro Spinner, then the children would not only have fun playing on this fun spinner, they could also watch things go by as they spin around. There are other kinds of Synchro Spinners, here are some:

Benches and tables with umbrellas

The reason why we want benches and tables with umbrellas is because when the parents want to stay close to watch their children, they have to stand or sit on the metal benches which is bad because in the summer, the benches get hot, so when we add the benches and tables with the umbrellas, the parents can sit down close to their children. On the other hand, in the summer, it gets extremely hot. So with the umbrellas, the parents and children can sit and cool down.

Bike racks

We would need these so people could put their bikes in a good spot instead of it being on the ground or getting stuck on the fence. And they can use their locks so someone doesn't steal it.

Bowl Swing

The reason why we should add a bowl swing is because it is easy to use and it is safe to use. All you have to do is sit on the swing and swing!

Another reason we should add a swing is so kids don't have to wait for other people to swing and then children don't have to be sad and complain.

Ideas we have to improve lake view park

More swings in our playground

We think there should be more swings in our playground because there isn't enough swings for everyone so if we add more swings it would make it fair for everyone who would want to use them.

This would give kids more opportunity to all have a turn with a swing

Why we should have a rock climbing wall

We think there should be a rock climbing wall because if there aren't any other options for kids to do then a rock climbing wall would be able to entertain them.

This can give kids an adventure as if they are climbing a real rock wall

Dog Park Equipment

We think there should be a section of the grassy area where the dogs can hang out and where they can play around and even where they can take a rest. We had this idea because we always see dogs at the park and we think they deserve a dog park. We should also had bags for the owners to pick up after their dogs if they need them.

All Love For Dogs

Why we should have picnic table

When parents take their kind to the park they fell to old to play and it's not something they enjoy so they usually use a phone or something and at lake view park there's nothing to sit on so we should add tables to change that

This would give people a place to sit

Why we should have a circle swing

We should have a circle swing because sometimes older people come to the park to relax and most of the time swings are already taken but this swing is calming and something all ages will enjoy.

This would help kids relax after 6 hours of school

Why we should have a soccer field

We think there should be a soccer field because there are many kids who like to play soccer but aren't able to because there is no soccer field. We think this would be fun for kids to do.

This could give kids more entertainment and energy

Sanitary Stations

We think there should be sanitary stations because we all know how dirty playground equipment is so we had the idea in case some people don't like leaving the playground with dirty hands. We think there should be hand sanitizer, wet wipes, and napkins so people can leave the playground clean.

This idea can help many people because many people hate germs so we think this should be an improvement to the park.

Thank you for considering our ideas!!

Imari Ortiz,
Emily Campos

A stylized, handwritten-style graphic of the words "Thank You". The text is written in a thick, black, cursive font. The word "Thank" is on the top line and "You" is on the bottom line. The text is surrounded by several short, black, radiating lines of varying lengths, giving it a sunburst or starburst effect.

We appreciate you helping lake view park

Playground improvements!

By Samaira, Emma, Jeena, Annaleece, and Sophia.

Floors

1. Solid Rubber Surface.
2. Fake grass
3. Rubber mulch

-emma

Soccer field

We want a soccer field because after school ends all of the kids would want to play.

Soccer is great for exercise

Fitness challenge

We want this because the one that we use is old and the paints were coming of and it was very rusty.

Xg221088

We want this because it is a big structure for when the park is crowded so there is more room and has more fun things.
