Worcester, MA 01608

Attn: Michelle M. Smith, Assistant Chief Development Officer

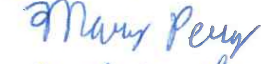

**Re: Letter in Support of Chick-fil-A Development Project at  
99 Stafford Street**

Dear Ms. Smith:

The purpose of this letter is to provide our strong support for Chick-fil-A's proposed construction and development of a new approximately 5,300 square foot building and related site improvements 99 Stafford Street in Worcester. The proposed new modernized building, robust landscaping and buffers, outdoor seating areas and sidewalks and new walkways will revive the site's aesthetic appeal and promote pedestrian activity.

This former Walgreens property is underutilized, and the proposed project will absolutely fit into the present character of the neighborhood and will not adversely affect, or be detrimental to, nearby properties with respect to noise, light or traffic. The proposed project will vastly improve the economic vitality of the neighborhood through the creation of new full and part-time jobs and the generation of substantial tax revenues and fees.

Very truly yours,
